Syllabus Quick Facts

Calculus for Business Administration and Social Sciences — Fall 2026

Course Information

Instructor Email: cm264@mailbox.sc.edu
Course Webpage: https://coffeeintotheorems.com/courses/2026-2/fall/math-122/
Office Hours: The instructor's office is LeConte 345C. The office hours are Monday 10:00am – 12:00pm, Wednesday 12:00pm – 2:00pm.

Grading Components

Course grades are determined by the following components:

Check-Ins	15%
Homework	20%
Exams	45%
Final Exam	20%

Attendance

Attend each lecture and show up on time. Address any absences—anticipated or otherwise—with the instructor. If you miss a lecture, you are responsible for any material covered, any work assigned, any course changes made, etc. during the class. Four or more unexcused absences from lectures could result in receiving a grade penalty per additional absence or an 'F' in the course. Furthermore, excessive lateness will also count as an absence. Report excused absences using the link at the bottom of the 'Course Resources' folder in Blackboard.

Check-Ins

There will be a check-ins *every* class, typically at the start of class. Because solutions will often then be immediately discussed, no make-up check-ins will be given (except under extraordinary circumstances). Check-ins will often be simple true/false questions. If you answer "IDK", a grade of 50% will *always* be awarded.

Homeworks

There will be weekly homework assignments. Homeworks will mostly be given and submitted using MyOpenMath. This assessment system is free for students and is integrated into Blackboard. Students will not need to create an account or make any purchases. You are encouraged to work with others on homeworks; however, be sure to carefully abide by the academic integrity standards excepted by the college and instructor.

Exams

There will be three exams in this course, each worth 15% of the course grade, for a total of 45% of the course grade. There will also be a final exam worth 20% of the course grade. Together, all exams are worth 65% of the course grade. The final exam is cumulative. There are no make-up exams except under extraordinary circumstances. There will be a possibility to improve previous exam scores at the end of the semester, which will be announced then in class.

Course Schedule

The following is a *tentative* schedule for the course and is subject to change.

Date	Topic(s)
08/19	Course Introduction and Review
08/24	Linear Functions & Applications
08/26	Averages & Rates of Changes
08/31	Applications of Linear Functions & Rates
09/02	Exponential & Logarithmic Functions
09/07	Labor Day (No Classes)
09/09	Applications of Exponential/Logarithmic Functions
09/14	Abstract Functions & Polynomials
09/16	Exam Review
09/21	Exam 1
09/23	Instantaneous Rates of Change & Derivatives
09/28	Derivatives & Derivative Rules
09/30	Derivatives & Derivative Rules
10/05	Interpreting Derivatives
10/07	Second Derivatives & Concavity
10/12	Maxima, Minima, & Graphs
10/14	Applications of Derivatives
10/19	Exam Review
10/21	Exam 2
10/26	Area & Net Change
10/28	Riemann Sums
11/02	Integrals and Fundamental Theorem of Calculus
11/04	Computing Integrals
11/09	u-Substitution
11/11	Interpreting Integrals
11/16	Exam Review
11/18	Exam 3
11/23	Thanksgiving Break (No Classes)
11/25	Thanksgiving Break (No Classes)
11/30	Final Exam Review
12/02	Final Exam Review
12/09	Final Exam
